## *Appendix E for Final Report on Hydrologic Modeling*

### **LIST OF FIGURES**

- Figure E-1. Exceedence Probability of Tracy Pumping Plant Export
- Figure E-2. Exceedence Probability of Banks Pumping Plant Total Export
- Figure E-3. Exceedence Probability of Delta Outflow
- Figure E-4. Exceedence Probability of San Joaquin River Flow at Vernalis
- Figure E-5. Exceedence Probability of Newman Wasteway Flow
- Figure E-6. Exceedence Probability of Stanislaus River Flow below Goodwin Dam
- Figure E-7. Exceedence Probability of Tuolumne River Flow below New Don Pedro Reservoir
- Figure E-8. Exceedence Probability of Merced River Flow below Lake McClure
